# Who We Are ?

EXWOR Digital, a specialized subsidiary of the EXWOR Group, is a next-generation digital services company. We transform business needs into high-performing digital solutions through a combination of innovation, strategy, and cutting-edge technologies.

We deliver powerful applications, integrated ERP systems, AI-driven platforms, and intelligent automation services to clients in the energy, construction, healthcare, and education sectors. Our services cover the full cycle: ideation, production deployment, maintenance, and continuous evolution.

## Our Vision & Mission:

**Vision:** To become a regional and international leader in designing intelligent digital ecosystems that drive business success.

**Mission:** To design, develop, and maintain digital platforms that accelerate innovation, optimize decision-making, and foster operational excellence.

## Sectors of Activity

Oil & Gas

Healthcare

Construction & Engineering

Education & Training

Logistics & Trade

- ✓ Real-time data acquisition & optimization (e.g., drilling)  
Natural Language Processing & computer vision
- ✓ Chatbots & intelligent assistants

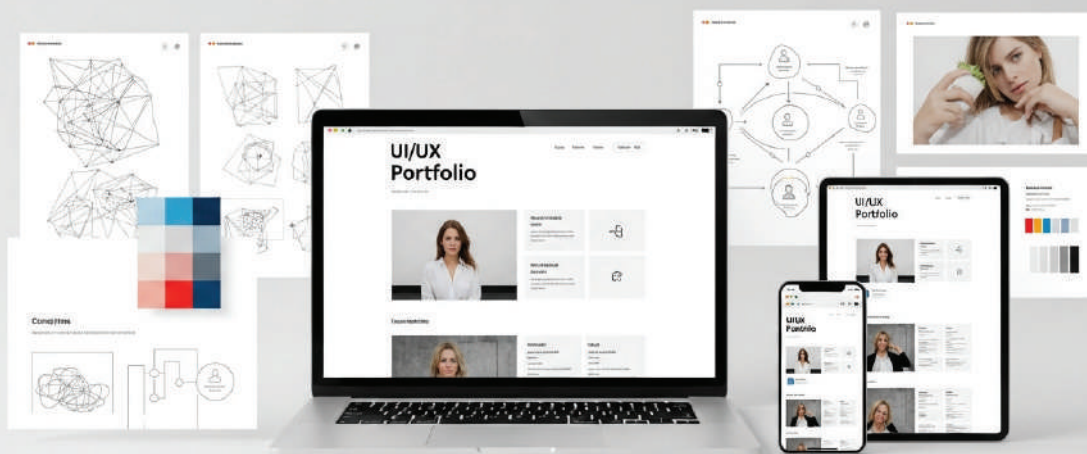

# SaaS Platforms & Custom Solutions

- ✓ SaaS product development
- ✓ White-label solutions
- ✓ Client portals & B2B platforms
- ✓ Analytical dashboards

# Digital & UI/UX Design

- ✓ Wireframing & prototyping
- ✓ User-centered design
- ✓ Visual identity for digital products

# Maintenance & Support Services

- ✓ 7/24 monitoring & SLA support
- ✓ DevOps automation (CI/CD pipelines)
- ✓ Cloud management (AWS, Azure, GCP)
- ✓ Patches, updates, performance optimization

## Technology Stack

- ✓ Frontend: React, Angular, Vue.js
- ✓ Backend: Node.js, Django, Spring Boot
- ✓ Mobile: Flutter, Kotlin, Swift
- ✓ Databases: PostgreSQL, MongoDB, MySQL
- ✓ AI/ML: TensorFlow, PyTorch, scikit-learn
- ✓ DevOps: Docker, Kubernetes, GitLab CI/CD
- ✓ ERP: Odoo, SAP, Oracle ERP
- ✓ Cloud: AWS, Microsoft Azure, Google Cloud

# Human Resources & Expertise

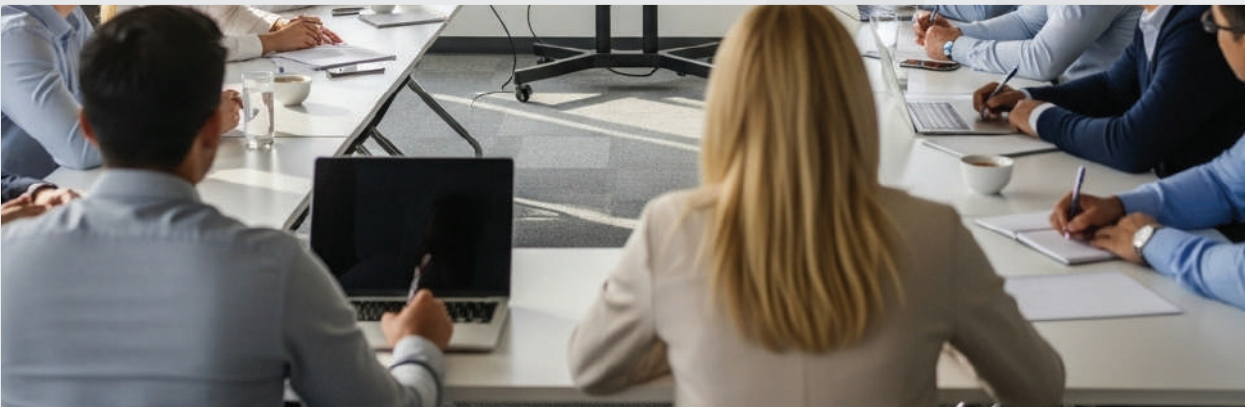

## Key Roles

- ✔ Full-stack developers
- ✔ Mobile developers
- ✔ DevOps engineers
- ✔ AI/ML engineers
- ✔ ERP specialists
- ✔ QA testers
- ✔ UI/UX designers
- ✔ Cybersecurity experts
- ✔ Product managers
- ✔ Business analysts

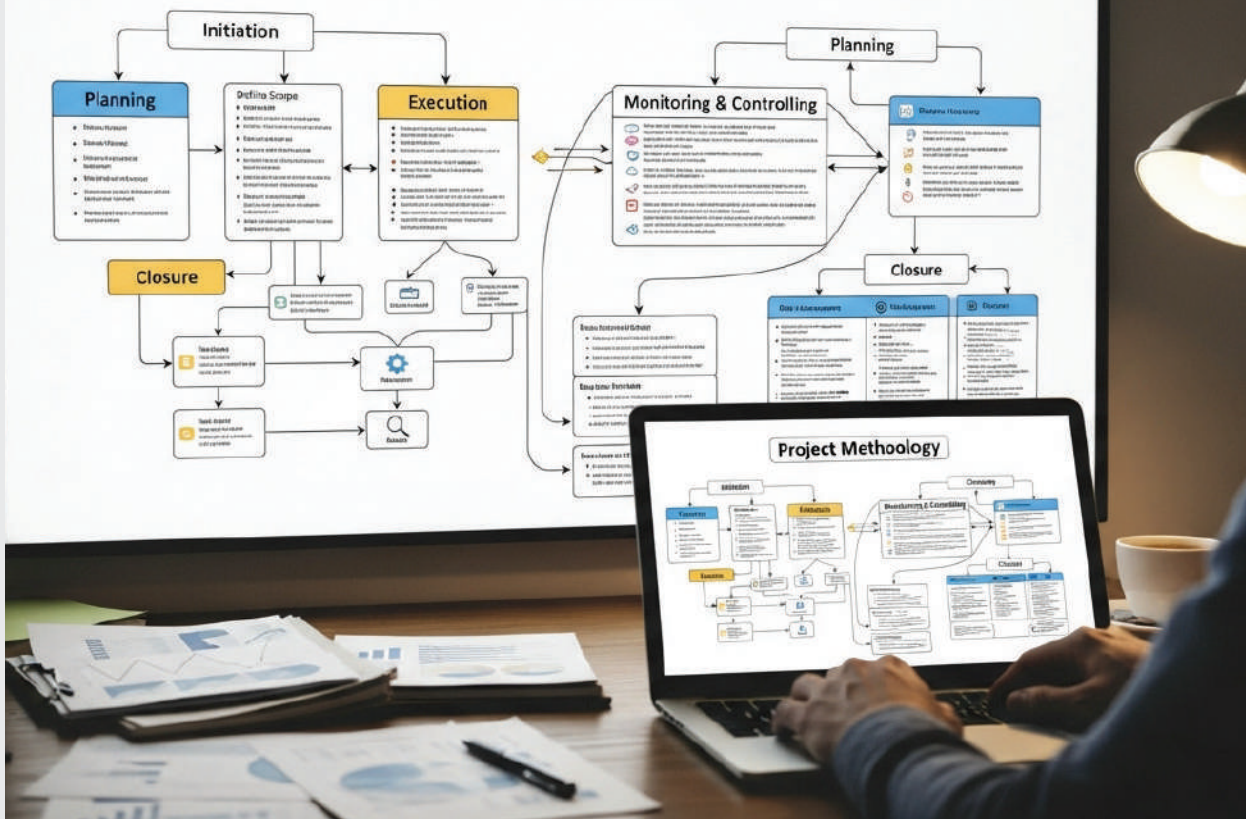

# Fostering Tailored Digital Innovation 2025 – for Businesses

## Training & Talent Development

- ✔ Internal bootcamps
- ✔ Professional certifications
- ✔ Coaching & personalized career plans

# Project Methodology

## Project Methodology

### Agile Framework:

- ✓ Sprint-based delivery
- ✓ Client feedback loops
- ✓ Backlog management & frequent iterations

## DevOps & CI/CD Integration

- ✓ Automated testing & continuous deployment
- ✓ Containerized environments
- ✓ Version control & release management

# Cybersecurity & Data Governance

- ✔ Secure coding best practices
- ✔ GDPR compliance
- ✔ Role-based access control & traceability

## Our Value Proposition

- ✔ End-to-end custom solutions
- ✔ Competitive pricing aligned with international standards
- ✔ Deep sector expertise
- ✔ Long-term support & scalability
