**INDUSTRIAL PROJECTS COMPANY**

**CONSTRUCTION**

**INSTALLATION**

**MAINTENANCE**

## **EXWOR Industry**

An international company active in several countries. We offer our clients our expertise and experience in executing technical projects in the energy, oil, and gas sectors, as well as in the construction industry. **Our company is distinguished by its versatility and adaptability, acquired over the past years through practical experience in implementing industrial projects.** Thus, customer support, partnership management, planning, and administrative organization are key strengths of our profile.

EXWOR is committed to executing its projects swiftly, starting from the bidding phase, by ensuring the supply of resources, providing tools, and managing work equipment, all supervised by highly qualified personnel.

## MAIN ACTIVITIES :

**OIL & GAS**

**INDUSTRY**

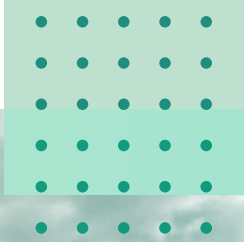

**PUBLIC BUILDING**

## ACTIVITIES:

- ✓ INDUSTRIAL CONSTRUCTION
- ✓ CIVIL ENGINEERING
- ✓ MECHANICAL ASSEMBLY «Equipment, Skins, ...»
- ✓ STEEL FRAMEWORK: DESIGN, MANUFACTURING, ASSEMBLY AND DISASSEMBLY WORK
- ✓ WELDING WORKS «ALL TYPES OF METALS»
- ✓ PIPING & INSULATION WORKS
- ✓ SURFACE TREATMENT BY BLASTING, INDUSTRIAL PAINTING, COATING
- ✓ ELECTRICAL & INSTRUMENTATION WORKS
- ✓ MODULAR CONSTRUCTION, SITE INSTALLATION AND LAYOUT OF LIVING BASES MANUFACTURING, AND RENTAL SITE CABINS
- ✓ RENOVATION WORKS OF LIVING BASES AND SITE CABINS
- ✓ PERSONALIZED TECHNICAL ASSISTANCE
- ✓ PROVISION OF: STORAGE SITE, MACHINERY, LIFTING MEANS, AND TRANSPORTATION

01

**EXWOR Industry**

has a competent and experienced management staff and a long-serving executive team equipped with all the necessary materials to carry out its activities.

02

**EXWOR Industry**

has earned the trust of its national and international clients by delivering work that meets their requirements according to best practices and within contractual deadlines, thanks to its experience, professionalism, and assets

## ➤ INDUSTRIAL CONSTRUCTION & CIVIL ENGINEERING

Since its inception, the development of EXWOR industry has always been based on its values, namely the quality of its services and the building of win-win partnerships with its clients. EXWOR undertakes projects for the installation of factories, workshops, or bases in oil fields, including the following tasks:

### Civil Engineering:

Pouring of reinforced concrete, grouting for petroleum equipment

Mechanical Assembly and  
Electrical Installation

**We have the most effective technical and human resources, allowing us to work in any type of environment and on all types of terrain with a well-thought-out work methodology.**

**EXWOR** provides its clients with the appropriate site machinery and equipment, along with a serious and qualified team trained to ensure site supervision, control, and topographic and geometric monitoring. We are committed to carrying out guaranteed work with seriousness and professionalism, within compliance deadlines, ensuring great satisfaction and appreciation.

*Compliance with health, safety, and environmental protection regulations is our priority, and our HSE supervisors are always available to ensure the supervision and proper functioning of all our sites.*

## STEEL FRAME CONSTRUCTION AND WELDING WORK

**EXWOR Industry** has the most efficient technical and human resources to perform all types of welding (MIG, TIG, ARC) in compliance with client requirements and WPS (Welding Procedure Specifications) on all types of metals (steel, stainless steel, chrome, aluminum), followed by non-destructive quality tests thanks to the competence and experience of EXWOR personnel in welding and steel structure construction.

**EXWOR** also uses new welding technologies, including robotic welding, to ensure increased precision, better efficiency, and superior welding quality. This advanced technology allows us to meet the specific needs of our clients while improving productivity and safety on-site.

*EXWOR Industry is always at your disposal to satisfy you and offer you the best offers for metal structure manufacturing services, with a guarantee of adaptability and evolution of your metal construction project.*

## ➤ PIPING & INSULATION WORK

**EXWOR Industry** handles all construction, assembly, and maintenance work on industrial piping for transporting fluids of all kinds for different types of industrial installations.

**Our experience in the energy plant sector** allows us providing you with a range of mastered services in piping, taking into account your requirements and constraints as a performance guide

## ➤ **BLASTING AND INDUSTRIAL PAINTING WORK**

Regarding the treatment of external facades and internal walls of buildings, storage tanks, and petroleum equipment, **EXWOR** offers its expertise and quality solutions for surface treatments, blasting, and the application of paints specific to your request.

Within our group, we can provide different types of treatments for steel, galvanized steel, metal framework, anti-wear, anti-acid, anti-dust paint, industrial paint, as well as insulation of tanks, pipes, and chimneys

**EXWOR Industry possesses all the necessary expertise to carry out all your construction projects and sites and ensures test inspections: quality, color uniformity, type of paint, specific conformity**

Compliance with health, safety, and environmental protection regulations is our priority during industrial sandblasting and painting work.

## ➤ ELECTRICAL & INSTRUMENTATION WORKS

**EXWOR Industry** handles all construction and installation work of industrial electrical networks and buildings by a qualified and experienced team capable of performing:

*Planning and execution of electrical works for industrial buildings and lighting*

*Assembly and installation of high voltage cabinets*

*Integration of industrial ventilation systems and adapted heat exchange*

*Integration of technological solutions for fire safety systems*

## ➤ MODULAR CONSTRUCTION AND SITE INSTALLATION

**EXWOR Industry** thanks to its solid partners and experts in the field, plans, builds, and installs modular cabins adapted to the requirements and constraints of your projects. Quick and easy to install, our modules allow you to assemble spaces suitable for all uses (camp cabins, offices, prayer rooms, storage (.containers, etc

We offer you the management of your base camp: installation, assembly, management, maintenance, equipment, and additional services (catering, cold room, mobilization-demobilization, mesh (.fence, tanks, furniture supply, etc

## ➤ PERSONAL TECHNICAL ASSISTANCE

In the field of industrial sector, **EXWOR** has highly qualified personnel to guarantee constant turnover and to maintain a dynamic high level of quality and quantity. as well as graduates' staff can be able to work in rigs, bases, and manufactories a, and are periodically trained in specific technical courses.

**EXWOR offers its clients technical assistance in the following trades:**

*Multifunction operators*

*Electricians*

*Instrument technicians*

*Mechanics*

*Pipefitters and tracers  
for thermal insulation*

*Carpenters*

*Welders*

*Security specialists*

*Quality expert*

## ➤ PROVISION OF CONSTRUCTION MACHINERY AND TRANSPORTATION

*EXWOR Industry* , provides all the necessary means for the realization of your projects:

Construction equipment

Machinery

Trucks

Lifting Means

Transport means

Energy source  
'Generator'

Scaffolding

Specific tools

## ➤ POLITICAL QUALITY

The fundamental mission of **EXWOR Industry** is to successfully deliver construction projects, provide technical assistance, perform maintenance, and install industrial equipment and facilities to the highest standards. Our company operates in a rapidly changing national and international environment and in a highly competitive industry. Our growth and sustainability are driven by the deployment of advanced tools and methodologies that meet the diverse requirements and expectations of all our stakeholders. Our ambition is to be recognized as a leader in the construction and engineering sectors.

*Our strategic approach is grounded in understanding the needs and expectations of our stakeholders while ensuring full compliance with all legal and regulatory requirements. In this context, the management team has established a comprehensive quality policy, which is communicated and shared with all employees and relevant stakeholders to ensure a commitment to excellence across the organization.*

## **COMPANY STRATEGY**

Foster national and international partnerships to undertake EPC (Engineering, Procurement, and Construction) and EPCM (Engineering, Procurement, Construction Management) projects, enhancing our global footprint and capabilities

Contribute to the development and implementation of new strategic initiatives that drive innovation and operational excellence

Diversify our business portfolio and expand our client base across various sectors and geographic regions to mitigate risks and capitalize on growth opportunities

Stay responsive to the explicit and implicit needs of all stakeholders, ensuring compliance with specified standards and continuously improving our services

Strive to achieve a leading position in the market by consistently delivering high-quality, innovative, and cost-effective solutions to our clients
