ABOUT US

As a proud subsidiary of [EXWOR GROUP](#), **EXWOR Training** specializes in providing industry-leading training solutions tailored for the oil and gas sector. Leveraging the latest technology and industry expertise, we deliver comprehensive training programs to equip professionals with the skills needed to excel in this highly technical and demanding field. Our mission is to create a world-class workforce capable of tackling the most complex challenges in the oil and gas industry.

In collaboration with **internationally renowned training institutions**, we ensure our clients receive training from top-tier instructors, bringing a variety of experiences and teaching methodologies to enrich the learning process. Our network of global partners allows us to deliver a diverse range of high-quality training programs tailored to meet the needs of our clients.

A Key Advantage: Clients of **EXWOR Training** also benefit from access to EXWOR Technical Assistance Center, which provides additional hands-on technical support, troubleshooting, and expertise that complements the skills gained through our training programs. This collaboration ensures that participants not only acquire theoretical knowledge but also benefit from practical solutions and ongoing technical assistance.

OUR TRAINING PROGRAMS:

1. IWCF Well Control and Well Intervention Training

At EXWOR Training Center, we offer certified IWCF Well Control and Well Intervention training for all levels. This course is designed to help participants gain the technical knowledge and practical skills required to safely manage well control incidents and interventions. Our state-of-the-art simulators provide a realistic environment for well control training, ensuring participants are well-prepared for real-life situations.

- › **Levels Offered:** Driller, Supervisor, Engineer
- › **Certifications:** IWCF Well Control, IWCF Well Intervention

2. Drilling Training

Our Drilling Technology courses provide an in-depth understanding of all aspects of drilling operations. Our programs cover essential topics and advanced techniques, ensuring participants are proficient in the following areas:

- › **Drilling Technologies**
- › **Directional Drilling (DD)**
- › **Measurement While Drilling (MWD)**
- › **Cementing**
- › **Drill Stem Testing (DST)**
- › **Fishing Operations**

Participants will also be introduced to cutting-edge technology used in modern drilling rigs, empowering them to apply the latest industry standards to their operations.

WHY CHOOSE EXWOR TRAINING

✓ State-of-the-Art Facilities:

Our training center is equipped with the latest technology and simulation equipment, providing participants with hands-on experience in a controlled environment.

✓ Industry Experts and International Trainers:

Our instructors are experienced professionals with extensive backgrounds in the oil and gas industry, and we collaborate with **renowned international training schools** to bring a diverse range of high-quality trainers to our clients.

✓ Certification and Compliance:

We offer internationally recognized certifications, ensuring that participants meet the highest industry standards.

✓ Customized Training Solutions:

Whether for individuals or teams, our training programs can be tailored to meet specific organizational goals, ensuring that your workforce is equipped to handle real-world challenges.

✓ Exclusive Access to EXWOR Technical Assistance Center:

EXWOR Training Center clients gain a unique advantage through access to the **EXWOR Technical Assistance Center**, providing ongoing support, practical guidance, and specialized technical assistance to complement the skills acquired in training. This partnership ensures that participants can apply their newly gained knowledge effectively with the backing of technical experts in the field.

QUALITY POLICY

At EXWOR Training, our fundamental mission is to deliver high-quality training programs that exceed the expectations of our clients. We are committed to continuous improvement, maintaining strict adherence to industry standards, and ensuring that all training is conducted in a safe and supportive environment. Through our dedication to quality, we aim to enhance the skills and competencies of professionals, contributing to the overall advancement of the oil and gas sector.

COMPANY STRATEGY

Our strategy is focused on long-term growth, innovation, and leadership in the oil and gas training sector. The key elements of our strategy include:

Developing National and International Partnerships: We work with leading global institutions and companies to enhance the quality and reach of our training programs.

Diversifying Our Training Portfolio: By offering a wide range of courses across technical, operational, and managerial domains, we ensure that our clients have access to comprehensive training solutions.

Aligning with Market Needs and Regulatory Requirements: We continuously adapt our training programs to meet the evolving needs of the industry and ensure compliance with global regulations and standards.

Achieving a Strong Market Position: Through excellence in training delivery and a focus on client satisfaction, we aim to position EXWOR Training as a leading provider of specialized training for the oil and gas sector.

CONCLUSION

At **EXWOR Training**, we are dedicated to empowering oil and gas professionals with the knowledge, skills, and certifications they need to excel in their careers. With a comprehensive range of training programs, international collaboration, and a commitment to quality, we are here to support your organization in building a capable and confident workforce ready to tackle the challenges of the energy sector. Clients also benefit from the support and resources provided by **EXWOR Technical Assistance Center**, ensuring that their learning translates into practical success on the field.

OUR TRAINING PROGRAMS:

3. Production Operations Training

We offer comprehensive courses covering **production operations** from start to finish. These courses are designed to enhance understanding and proficiency in key operational processes, such as:

- › **Coiled Tubing Operations**
- › **Slick Line and Wire Line**
- › **Well Testing and Completion**
- › **Artificial Lift Systems**
- › **Tubular Running Services (TRS)**
- › **Pumping and Gas Boosting Techniques**
- › **Worker Training for Rig Operations**

Participants gain both theoretical and practical knowledge of how production systems function, including the operational and safety requirements necessary to keep production running efficiently.

4. HSE Training

Health, Safety, and Environment (HSE) is a critical focus in the oil and gas industry, and **EXWOR Training Center** is committed to instilling best practices. We offer a wide range of HSE courses designed to ensure compliance with international safety standards:

- › **First Aid and Emergency Response**
- › **Fire Fighting and Fire Safety**
- › **HSE Training for All Levels (Basic, Intermediate, Advanced)**
- › **Hazard Identification and Risk Assessment (HIRA)**
- › **Environmental Management Systems**

By attending our HSE programs, participants will acquire the skills needed to maintain a safe and compliant work environment, reducing the risks associated with oil and gas operations

OUR TRAINING PROGRAMS:

5. Instrumentation Training

Our **Instrumentation training** focuses on the latest innovations in control systems and instrumentation used in oil and gas operations. This course covers the design, installation, calibration, and maintenance of instruments and control systems, preparing professionals for hands-on work with highly sensitive equipment. Topics include:

- › **Control System Automation**
- › **Field Instrumentation**
- › **Process Control**
- › **SCADA Systems (Supervisory Control and Data Acquisition)**
- › **Calibration Techniques and Equipment Testing**

6. Language Training

In a global industry like oil and gas, communication is key. We offer **language courses** specifically designed to enhance communication skills for professionals working in multicultural environments. Our language training includes:

- › **Technical English for Oil & Gas**
- › **French, Arabic, Italian, Spanish, and German Language Proficiency**
- › **Business Communication Skills**

Our courses are tailored to meet the needs of the industry, focusing on vocabulary and communication strategies that enhance collaboration and efficiency in diverse teams.

OUR TRAINING PROGRAMS:

7. Psychological and Moral Training

Working in high-stress environments like the oil and gas industry requires mental resilience. Our Psychological and Moral Training programs are designed to help individuals manage stress, maintain mental well-being, and stay focused on their professional responsibilities. **Topics include:**

- › **Stress Management and Coping Strategies**
- › **Workplace Mental Health**
- › **Team Collaboration and Leadership**
- › **Building Resilience in Challenging Work Environments**

By promoting psychological well-being, we help professionals maintain peak performance even in demanding conditions.

8. Management Training

In addition to our technical and operational training, we offer **Management Training programs** designed to build leadership and organizational skills in various areas. These courses are suitable for professionals looking to enhance their management capabilities and drive organizational success. Our programs include:

- › **Leadership Development**
- › **Supply Chain Management**
- › **Financial Management**
- › **Sales and Business Development**
- › **Project Management**
- › **Operational Efficiency**
- › **Strategic Planning and Execution**

These courses are designed to equip managers with the skills to lead their teams effectively, improve operational efficiency, and drive overall business performance.
